### Hybrid Electric-

The Voltex® hybrid electric heat pump water heater more than lives up to its impressive reputation. The 50, 66 and 80-gallon models use heat pump technology, which means more energy stored, resulting in increased savings. And the consumer-friendly display is simple to operate and provides easy-to-understand feedback on operational status.

- ENERGY STAR® qualified
- Four operating modes: Efficiency, Hybrid, Electric, Vacation
- Conserves energy with up to 3.24 Energy Factor (EF) rating

## Tankless

A. O. Smith tankless units provide you with endless hot water in one of the most energy-efficient ways possible.

- Indoor and outdoor designs take up less space and allow for additional storage and flexibility
- Maximum flow rates up to 14.5 GPM
- Heat exchangers are constructed of HRS35 commercial-grade copper and 316L stainless steel to protect against corrosion.

## Electric

Our ProMax® electric water heaters offer exceptional energy savings and durability. This robust product line offers features that reduce lime and sediment buildup and includes thick CFC-free foam insulation for higher efficiency. And ProMax gives you plenty of installation choices including tall, short, lowboy and point-of-use models.
